

NEW TRITON **ATHLETE**

**MITSUBISHI
MOTORS**

Drive your Ambition

ENGINEERED BEYOND TOUGH

Tough journeys don't last. Tough people do. Unleash your winning spirit with the Triton, featuring the toughest 4WD performance in town. Delivering top-notch durability to tackle any terrain and utmost reliability when the going gets tough, the Triton is designed for champions.

With its ultra-stylish Dynamic Shield Design and technologically-advanced safety features, the Triton is ready to achieve your ambitions to explore.

40 YEARS OF TOUGHNESS

With every evolution, our Triton gets tougher. With a remarkable 40-year journey, we're proud to deliver Triton's best ever performance.

4SURETM HANDLING

► POWER ► CONTROL ► AGILITY ► SAFETY

The Triton displays 4SURE Handling that unpacks its unique, unbeatable 4WD performance to conquer any challenges that come into your path.

When it comes to the crunch, handling is what separates good from great in a 4x4 experience.

4SURE POWER

You'll need all that power to reach the finish line like a true champion. With superior performance under the hood, you're ready to go the distance.

BEST-IN-CLASS

6 Speed Transmission (AT/MT)

Provides seamless & more powerful acceleration for greater response and performance.

MIVEC TURBO DIESEL ENGINE

The first aluminum engine in a pick-up truck. Experience best-in-class maximum power and maximum torque with Variable Valve Timing (VVT) technology providing optimal valve timing at low and high rev ranges for any terrain.

181 PS
MAX POWER

430 NM
MAX TORQUE

4SURE CONTROL

Get the confidence to take on any challenge anytime, anywhere. With complete control at your fingertips, you're ready to reach the ultimate summit of your journey.

Visuals shown are for illustration purposes only. Specifications may vary according to variant/market. | Please consult your local Mitsubishi Motors dealer for more information.

1st IN CLASS

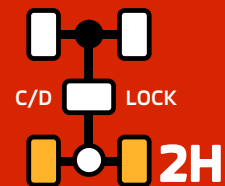

Super Select 4WD-II

Delivers optimum traction and handling characteristics for any given surfaces.

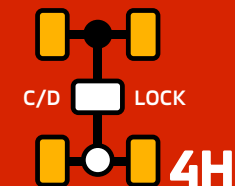

2WD High Range

Best used for normal road conditions and for fuel efficiency.

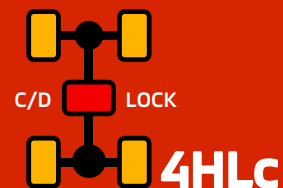

Full Time 4WD

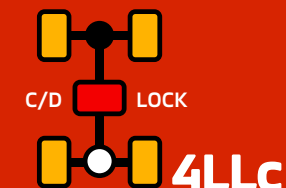

Ideal for rough or slippery roads and hazardous conditions.

4WD High Range with locked centre differential is used when driving on rugged terrain with low-grip surfaces.

4WD Low Range with locked centre differential provides maximum traction for steep hill/sandy/rocky terrains.

Hill Descent Control

Brakes are automatically applied on downhill terrain, allowing the driver to focus on steering.

1st IN CLASS

Total of 4 drive modes for extra traction

Off-road Mode

Integrally controls engine power, transmission and braking to regulate the amount of wheel slip and maximise all-terrain performance.

Approach Angles

Challenges are unpredictable.
Dominate all climbs, go over,
around and through any terrain.

Lateral Travel Angle

Approach & Departure Angle

Ramp Break-over Angle

4SURE AGILITY

Life is never a straight road. There will be narrow paths to navigate. Agility is key to responding well to curveballs and redirecting one's path to the destination.

BEST-IN-CLASS

5.9 METERS

Turning Radius

Best-in-class 5.9 metres (4WD), making any turning done effortlessly for easier maneuverability.

Its steady build contributes to better agility and handling of curves, even at the tightest corners or carpark.

4 SURE SAFETY

Winning the day is reaching your destination safely. With the foresight to see what lies ahead, you can ensure the safety of you and your loved ones. And most importantly, peace of mind wherever you go.

1. Forward Collision Mitigation [FCM]

FCM system detects vehicles and pedestrians ahead and issues visual and audio alert when there is a danger of collision, automatically applying the brakes to avoid collision or reduce impact.

2. Blind Spot Warning with Lane Change Assist [BSW with LCA]

Detects an approaching vehicle from behind/rear quarter and alerts driver with an audible alert and displays blinking warning in the door mirrors to assist driver to change lanes with confidence.

3. Rear Cross Traffic Alert [RCTA]

Helps detect a moving vehicle when reversing. It alerts driver via a buzzer sound and an indicator light appearing in the combination meter.

4. Ultrasonic Misacceleration Mitigation System [UMS]

Reduces the chance and severity of hitting obstacles front and back when driver mistakenly presses the accelerator when vehicle is stationary.

5. Auto High Beam [AHB]

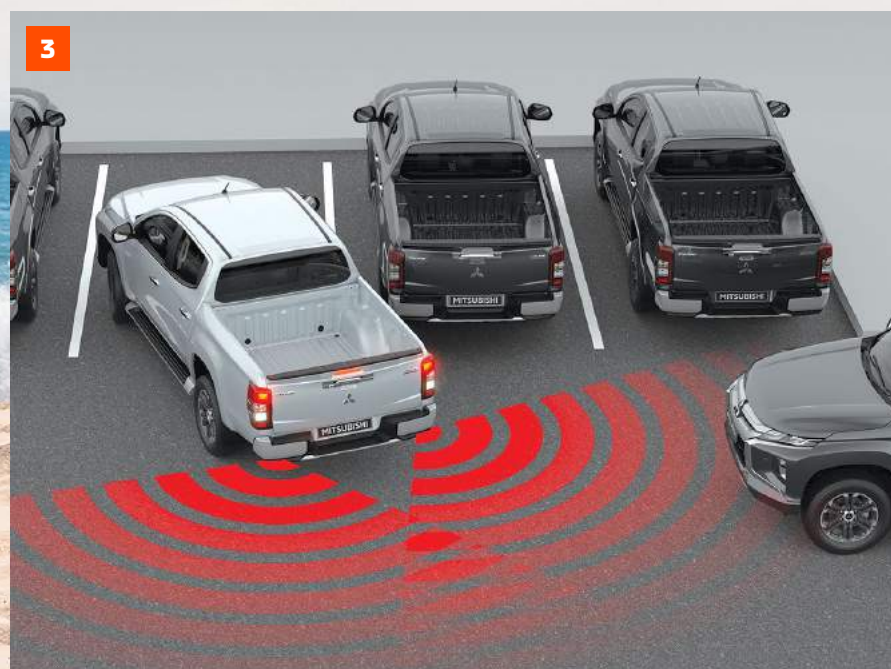

Better safety, comfort and driving ease at night by automatically switching between high & low beam.

6. Driving Video Recorder [DVR]

Captures every moment or incident while you're on the move.

7. 7 SRS Airbags

Protects driver and passengers by absorbing the force of impact in the event of a collision.
